Glory to God in the Highest

Desperate, Pregnant & Alone

Eleven years ago, Brittany found herself unexpectedly pregnant and alone. Desperately desiring support, she turned to Abstinence Clearinghouse's sister organization, Alpha Center, for help. Brittany chose life for her child and with only two weeks left in her pregnancy, she surrendered her life to Christ.

Brittany realized in that moment that she wanted a better life for her daughter, Averi. At that time, God changed the desires of her heart and she committed herself to remaining abstinent until marriage.

When Averi was almost two years old, God answered Brittany's prayer for a spouse and provided a godly husband for her and a father for her daughter. Brittany's husband adopted Averi as his own and the couple now has four beautiful children.

Brittany chose life for her child & she surrendered her life to Christ.

"I have witnessed firsthand through my own experiences the importance of educating children on the topic of sexual integrity. God has redeemed my story for his glory and I now desire my children to have the confidence to make better decisions than I did growing up. The topic of sexual integrity has been at the forefront of my mind, especially now as my oldest child is starting to mature into a young lady. Through ongoing conversations at home, I can help give my children the tools needed to make informed decisions about their sexual integrity."

Glory to God

Those tools have included resources from the Abstinence Clearinghouse store. Using books like *The Princess and the Kiss* and *The Squire and the Scroll*, Brittany has introduced purity to her children at an early age.

Brittany also recently took her daughter, Averi, for a weekend *Passport2Purity* getaway. She was able to talk to her about pursuing purity, boundaries in courtship and dating, peer pressure and more. Brittany ended the weekend by presenting her daughter with a purity ring purchased through the Abstinence Clearinghouse; a tangible reminder to Averi of what a special gift her purity is and to handle it with care.

"My daughter and I had a blast at the beach as we bonded during our weekend together. It was a special time away where I had some much needed one-on-one time with her."

Brittany's Family

Abstinence Clearinghouse exists to empower men and women of virtue and to support parents like Brittany as the primary educators of sexual integrity in their children's lives.

Your gift of \$500, \$250, or \$100 will impact and make a difference in the lives of the next generation. Your support will make it possible for us to remain on the forefront in the fight for abstinence until marriage and continue supporting parents as the primary educators of their children.

Keep Shining,
